**SPOT™** Universal Remote Control    Model. LS034

Setting up your LifeSmart™ SPOT™ Universal Remote Control

User Guide Version 1.0

## PRODUCT INTRODUCTION

SPOT™, a Universal Remote Control, adds more ways to simplify your life. In addition to replacing traditional home theater and A/C remote controls with control from your phone or tablet, SPOT™ also interacts with other LifeSmart™ Smart Home products via a Smart Station that can automatically trigger your devices upon entering a room and more. Control air conditioning or heat pumps and other IR devices using your own creative ideas. SPOT™ also features 16 million color illumination to add ambiance or to function as a night light, a USB charging port, and has an attractive design. SPOT™'S configuration is easy to set up and, with the addition of other LifeSmart products, you can trigger lighting, sound, and so much more. Not only that, but you will benefit from all of the amazing new technologies that LifeSmart™ is bringing to life, such as LifeSmart™ Cloud services and emotion recognition technology, so that your home knows how to meet your needs without you even realizing it. Now you can interact with your home and loved ones anytime. Brilliant and simple, get ready to experience carefree smart home living that the whole family can enjoy.

### Disposal And Recycling Information

## SPOT

- ① USB Charging Port
- ② Micro USB Power Supply Port
- ③ Smart Button

## EASY SETUP

SPOT™ requires the LifeSmart™ APP and free LifeSmart™ Account to operate. For this product no Smart Station is needed. Please download the APP to your smart device. The APP is available by scanning the following QR Code or going directly to the Google Play or iOS App Store.

### ▶ Method 1

### ▶ Method 2

- ① Open the LifeSmart™ APP and initiate adding a device.
- ② Plug in SPOT™. It will turn white and then turn to blue indicating that the device is initialized.
- ③ Follow the instructions in the APP to finish setting up SPOT™.
- ④ You are now ready to add and control your home appliances with SPOT™.
- ⑤ You can now use the APP to add Remote Control Codes, schedule times for SPOT™ to activate your devices or to set a one button function to trigger multiple devices.
- ⑥ Optionally, add the LifeSmart™ Smart Station to your LifeSmart™ Smart Home System so that you can add sensors and other products that can trigger events through SPOT™.
